

we learn, we build, we play with
LEGO® Bricks

AFTER SCHOOL

So fun it won't feel like learning!!

Early Engineers is back at North Lake!

After School STEM Enrichment Program

Bricks 4 Kidz classes provide an extraordinary atmosphere for children, where we learn, we build and we play...with LEGO® bricks. Students build a new model each week, designed by B4K engineers and architects, with exciting themes that kids love! We use technic LEGO®'s, teaching students how gears, pins and axels work together to create movement. We have multiple levels of difficulty for each build of the day to accommodate younger or less experienced builders to the older or more seasoned builders. Our models are motorized, designed to give students the skills they will later use in robotics courses, while developing team building skills and HAVING FUN!!! There are six classes per session and sessions are never repeated! Each session will focus on a different theme with new challenging builds.

Wheels in Motion

These wheels are ready to Roll! Students will use LEGO bricks, axles, pulleys, gears and motors to build a variety of models on wheels. Some are familiar vehicles, such as a fire engine and delivery truck. Others are more spectacular, such as the Rescue Robot and K-9 Bot. Do you have a need for speed? We'll explore concepts of speed and force and gain non-vehicle knowledge from the models as well. Let's roll!

ENROLL TODAY - CLASS SIZE IS LIMITED - LESSONS WILL NEVER BE REPEATED AT ST DOMINIC'S

2017 SUMMER CAMPS HAVE BEEN POSTED!

Class Information

Price: \$84.00 / 6 week session
Grades: 5K-5th (model builds vary based on age and skill level)
Mondays: March 20th - May 8th
*No Class Apr. 10th & April 17th
Time: 2:35 pm - 3:35 pm
