

FISCAL MANAGEMENT

3001

The Board of Education recognizes that its primary responsibility is to provide the best education possible within the parameters of the District's established curriculum and the limits of available financial resources. The quantity and quality of programs and activities are directly dependent on the funding provided and the effective, efficient management of those funds.

It is essential that the District take specific action to ensure education remains the central focus and that fiscal matters provide ancillary contributions to the educational program.
