

## ~~SELECTION OF INSTRUCTIONAL MATERIALS AND EQUIPMENT~~

4004

The Board of Education shall provide textbooks and other instructional materials and equipment necessary to implement District curriculum requirements and to address instructional needs in support of the educational program.

All instructional materials and equipment of the district shall be classified and catalogued according to an acceptable system. Textbooks shall be made available to all children in sufficient quantity and at appropriate levels to ensure they are optimally useful.

Every book issued shall bear the stamp of the district. Students shall be held responsible for the cost of replacing any materials or properties that are lost or damaged through their negligence.

The responsibility for approval and allocation of instructional materials ultimately rests with the School Board. The District Administrator shall be responsible for recommending guidelines for the selection, approval, inventory, maintenance, and removal of educational materials. The Board delegates responsibility for selection and recommendation of instructional materials to members of the professional staff.

North Lake School District shall not discriminate in selection and evaluation of instructional and library materials or media on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation, physical, mental, emotional or learning disability or handicap. Discrimination complaints shall be processed in accordance with established procedures.
