

HEAD LICE

4016

The North Lake School District shall conduct a head lice inspection of the entire school during the first week of returning to school in the fall, winter recess, and spring break. The inspection will take place under the supervision of building administration and shall be conducted by individuals trained to do so by the Waukesha County Health Department. The building administration will maintain a set of procedures to ensure that students and their families are provided with notice of the lice inspections. Students and families of North Lake students will be provided with information on head lice and treatments for infestation.

North Lake School shall maintain a nit free policy for all students. Students with nits shall not be admitted to school.
