

SCHOOL ADMISSIONS: IMMUNIZATION REQUIREMENTS/ NONDISCRIMINATION

Under law, all pupils entering school are required to have a written statement from a physician certifying that they have received immunizations against: a) poliomyelitis (or are in the process of receiving such immunization); b) measles (with live measles vaccine or have had measles); c) German measles (if the child is under the age of puberty or certification that the child has had German measles); DTP; e) Mumps; and e) Hepatitis B.

A written statement by the person in parental relationship to the child is accepted in lieu of a physician's statement when the child has received these immunizations before certain dates to be specified annually.

A pupil will be exempted from the above requirements only when: *a) a physician's statement is presented to the effect that immunizations against one or more of the four diseases would be detrimental to the child's health; or b) a written statement is subscribed to an affirmed as true by a parent or guardian that the parent or guardian is a bona fide member of a specified recognized religious organization whose teachings are contrary to the administration of immunizing agents against the five diseases; or c) personal conviction.*

Evidence of completed basic and recall (booster) series as required by law must be presented prior to first time admission into the District.
