

EXTRA-CURRICULAR PROGRAMS

7016

Student activities are a vital part of the total educational program and should be used as a means for developing wholesome attitudes and good human relations, as well as knowledge and skill. The greatest values to be derived from extra-curricular school activities occur when such activities are a result of student, staff, and community input. The Board shall encourage and support extra-curricular activities and programs that promote these objectives. The North Lake School Board encourages the full participation of elementary and middle school students in extra-curricular and recreational programs and activities. For purposes of Board policy, "full participation" means fair and equal participation to the extent that the budget, facilities or type of activity allows.

The North Lake School District shall not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions or facilities usage on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation, physical, mental, emotional or learning disability or handicap. This policy does not, however, prohibit the District from placing a student in a program or activity based on objective standards of individual performance, providing separate programs in interscholastic athletics for males and females if such programs are comparable in type, scope and support from the District, or from providing separate toilet, locker and shower facilities. Discrimination complaints shall be processed in accordance with established procedures.
